

Join the Team and Watch Your Business Grow

Over 80% of the adult population in the United States uses the Internet on a regular basis. On Bainbridge Island, it's probably 90% or more. Now is the time to become part of the online neighborhood at **Bainbridge Island Community Network**. We've been creating online community ties for 16 years. By integrating your business into our network, we offer you optimal exposure to all our site visitors – **170,000 hits per month, and growing**.

Your business will be:

- visible in the Community Network's listings of local information and activities
- included in the Community Network's business section
- introduced to everyone looking for visitor information
- highlighted with other businesses in your geographic area
- networked with community activities
- displayed under every category that's appropriate for your business

And, if you already have a web site, your association with **Bainbridge Island Community Network** will drive significantly more visitors to your site. (search engines like us)

A good example of our comprehensive promotional efforts is what we've done for Doc's Marina Grill. They're listed in the Dining Directory, and included as part of the Marina District and the "Walk from the Ferry" District. They're referenced in conjunction with boating information. They're incorporated into a unique piece on the history of Mac's Tavern (a notable early tenant of their building), and they're using our copy as part of their own website. And, in the future, they'll be included on our site with anything that pertains to Doc's, such as free Wi-Fi, entertainment, special events, or free art exhibits.

Total cost: just \$200 per year for all our marketing services

Think about the price. This small amount is quickly recoverable in your normal course of business, but the investment will pay for itself many times over. Internet marketing is especially valuable to the many businesses that operate outside high-visibility areas or where providing information on services is an essential part of drawing customers. The Internet offers both high visibility and a perfect forum for conveying that essential information.

One more thing...to maximize your exposure, we create a single web page to represent you in our system. We use this page to integrate your business into the many aspects of the community website. Also, from this page consumers can go to your existing website for more detailed information. Normally, the setup cost for this service is \$50 to \$200, but now through January 15...

Your setup is FREE!

Bainbridge Island Community Network was formed 16 years ago with two goals -- to create an online community presence for Bainbridge Island, and to **support local business**. By offering our marketing capabilities, we hope to contribute to a vibrant local economy in the good times and to help keep it vital through the downturns.

We can also help you develop a more comprehensive, individual website for your business.

Call us today at 842-0236. Sincerely, Dave Henry
